

CALCULATION POLICY

Broomwood Primary School

This policy supports the White Rose maths scheme used throughout the school. Progression within each area of calculation is in line with the programme of study in the 2014 National Curriculum. This calculation policy should be used to support children to develop a deep understanding of number and calculation. This policy has been designed to teach children through the use of concrete, pictorial and abstract representations.

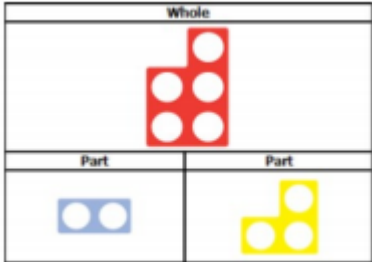

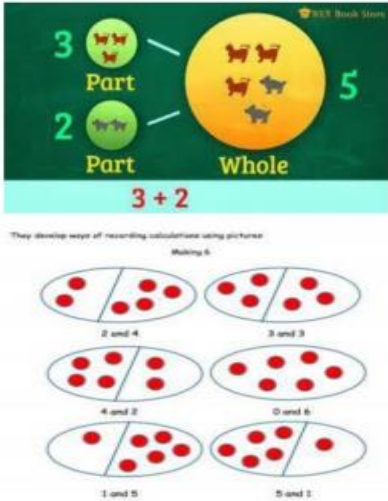

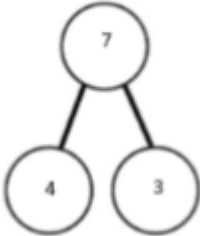

Concrete representation— a pupil is first introduced to an idea or skill by acting it out with real objects. This is a 'hands on' component using real objects and is a foundation for conceptual understanding.

Pictorial representation - a pupil has sufficiently understood the 'hands on' experiences performed and can now relate them to representations, such as a diagram or picture of the problem.

Abstract representation—a pupil is now capable of representing problems by using mathematical notation, for example $12 \times 2 = 24$.

It is important that conceptual understanding, supported by the use of representation, is secure for all procedures. Reinforcement is achieved by going back and forth between these representations.

EYFS – Addition

	Concrete	Pictorial	Abstract
Explore part-part whole relationships by combining two parts to make a whole	 		<p>$4 + 3 = 7$ Four is a part, 3 is a part and the whole is seven.</p> 

Using the ten frame/egg boxes to support addition of single digits—counting all/ combining two groups

	$6+4=10$
	$4+4=8$
	$5+2=7$
	$2+4=6$

	$6+4=10$
	$4+4=8$
	$5+2=7$
	$2+4=6$

Solving problems using concrete, pictorial images.

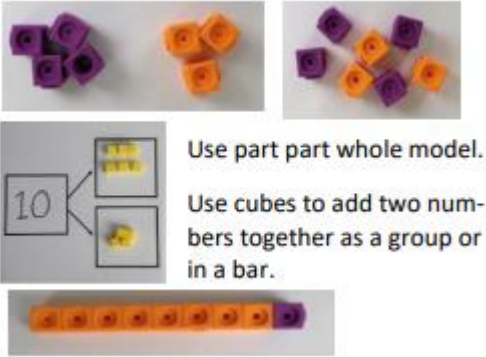

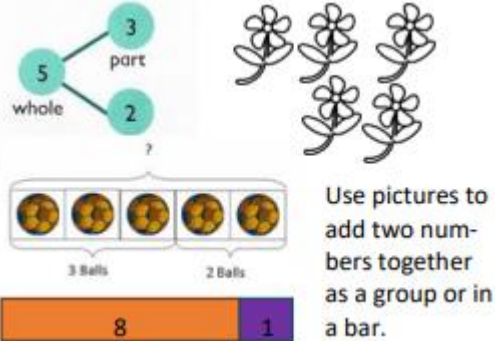

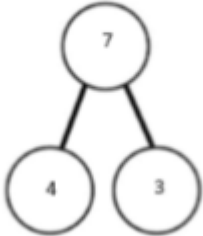

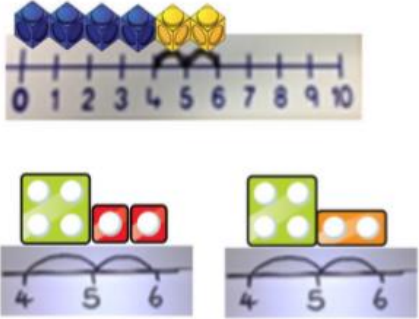

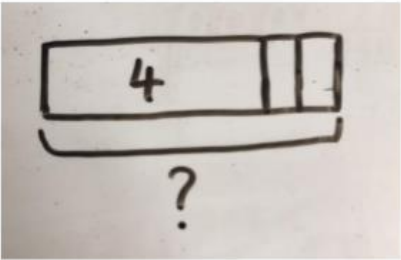

Sara has 2 apples.
Jon has 5 apples.
How many apples do they have altogether?
How many more apples does Jon have than Sara?

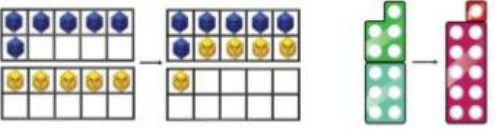

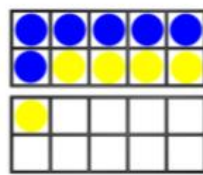

$$5 + 2 = \underline{\quad}$$

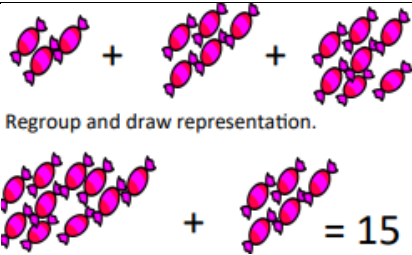

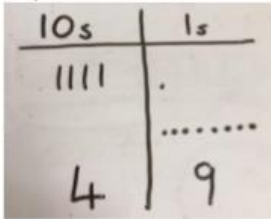

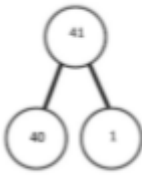

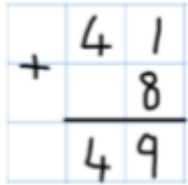

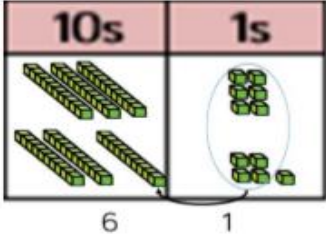

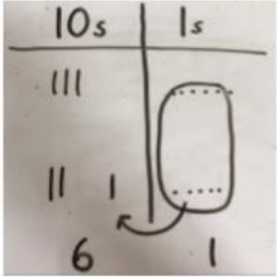

Only where appropriate and supported by concrete/pictorial examples

Year One -

	Concrete	Pictorial	Abstract
Combining two parts to make a whole: part whole model.	 <p>Use part part whole model.</p> <p>Use cubes to add two numbers together as a group or in a bar.</p>	 <p>Use pictures to add two numbers together as a group or in a bar.</p>	<p>$4 + 3 = 7$ Four is a part, 3 is a part and the whole is seven.</p> 
Starting at the bigger number and counting on using cubes.	<p>Counting on using number lines using cubes or Numicon.</p> 	<p>A bar model which encourages the children to count on, rather than count all.</p> 	<p>The abstract number line:</p> <p>What is 2 more than 4? What is the sum of 2 and 4? What is the total of 4 and 2? $4 + 2$</p> 

<p>Regrouping to make 10 using ten-frame.</p>	<p>Regrouping to make 10; using ten frames and counters/cubes or using Numicon.</p> <p>6 + 5</p> 	<p>Children to draw the ten frame and counters/cubes.</p> 	<p>Children to develop an understanding of equality e.g.</p> $6 + \square = 11$ $6 + 5 = 5 + \square$ $6 + 5 = \square + 4$
---	---	---	---

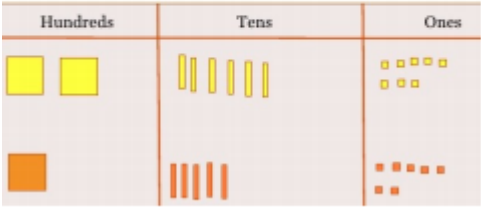

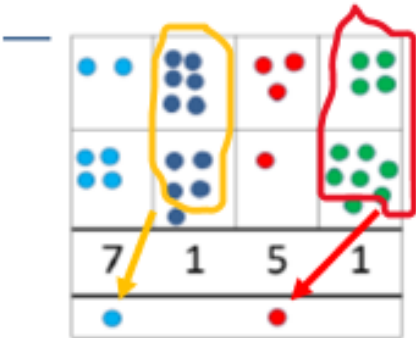

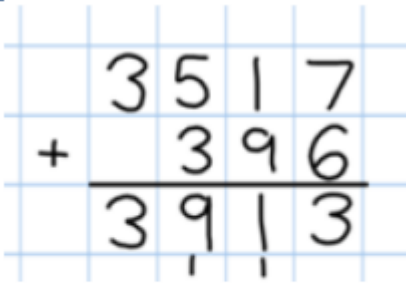

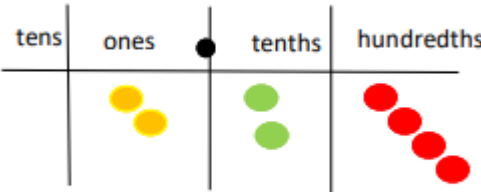

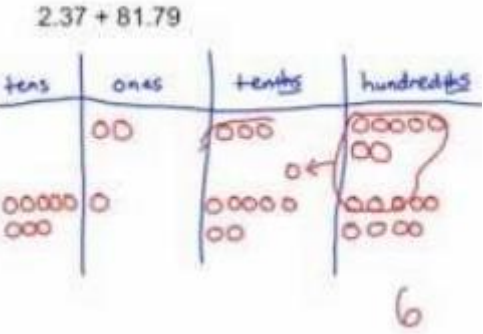

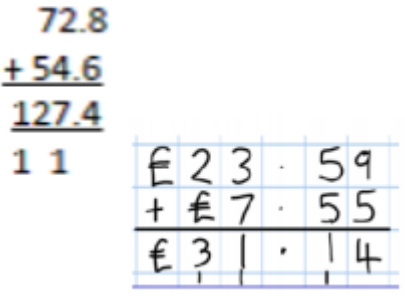

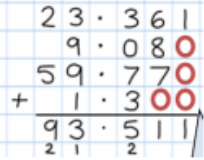

Year Two – Addition

	Concrete	Pictorial	Abstract
Adding three single digits.	 <p>Combine to make 10 first if possible, or bridge 10 then add third digit</p>	 <p>Regroup and draw representation.</p> <p>$10 + 7 = 15$</p>	$\begin{array}{r} 4 + 7 + 6 = 10 + 7 \\ 10 \\ = 17 \end{array}$ <p>Combine the two numbers that make/bridge ten then add on the third.</p>
Use base 10 to combine a single digit and 2-digit number	<p>TO + O using base 10. Continue to develop understanding of partitioning and place value. $41 + 8$</p> 	<p>Children to represent the base 10 e.g. lines for tens and dot/crosses for ones.</p> 	<p>$41 + 8$</p>  <p>$1 + 8 = 9$ $40 + 9 = 49$</p> 
Use of base 10 to combine two 2-digit numbers	<p>TO + TO using base 10. Continue to develop understanding of partitioning and place value. $36 + 25$</p> 	<p>Children to represent the base 10 in a place value chart.</p> 	<p>Looking for ways to make 10.</p> <p>$36 + 25 =$</p> <p> $30 + 20 = 50$ $5 + 5 = 10$ $50 + 10 = 60$ $60 + 1 = 61$ </p> <p>Formal method:</p> $\begin{array}{r} 36 \\ + 25 \\ \hline 61 \\ 1 \end{array}$

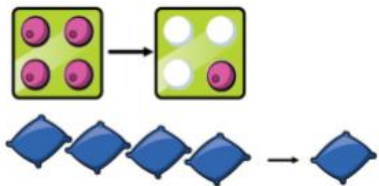

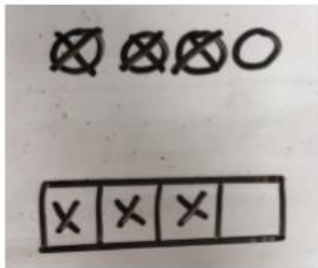

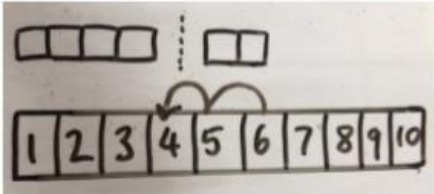

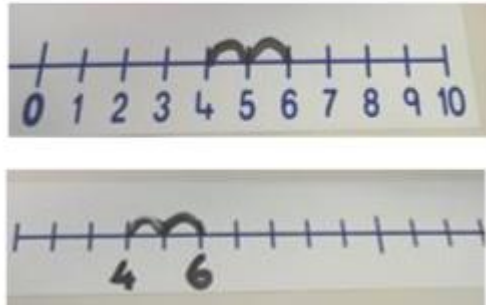

Year Three – Addition

	Concrete	Pictorial	Abstract
<p>Column method no regrouping.</p> <p>3-digit numbers</p>	 <p>Model using Dienes or numicon</p> <p>Add together the ones first, then the tens.</p> <p>Move to using place value counters</p>	<p>Children move to drawing the counters using a tens and one frame.</p> 	$\begin{array}{r} 223 \\ + 114 \\ \hline 337 \end{array}$ <p>Add the ones first, then the tens, then the hundreds.</p>
<p>Column method regrouping</p> <p>3-digit numbers</p>	 <p>Exchange ten ones for a ten. Model using numicon and pv counters.</p>	<p>Children to represent the counters in a place value chart, circling when they make an exchange.</p> 	$\begin{array}{r} 243 \\ + 368 \\ \hline 611 \end{array}$

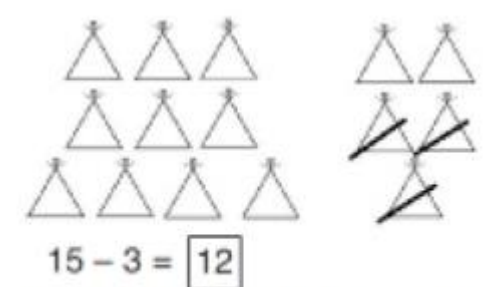

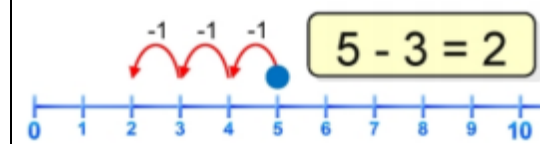

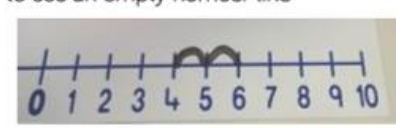

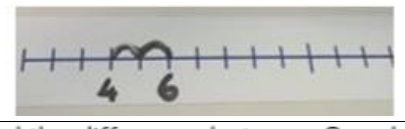

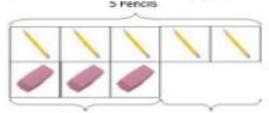

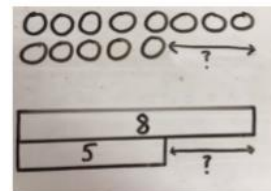

Year Four to Six - Addition

	Concrete	Pictorial	Abstract
<p>Yr 4</p> <p>Column method regrouping</p> <p>4-digit numbers</p>	<p>Children continue to use dienes or pv counters to add, exchanging ten ones for a ten and ten tens for a hundred and ten hundreds for a thousand.</p> 	 <p>Draw representations using pv grid.</p>	 <p>Continue from previous work to carry hundreds as well as tens.</p> <p>Relate to money and measures.</p>
<p>Yr 5</p> <p>Column method regrouping</p> <p>Including decimals</p>	<p>As year 4</p>  <p>Introduce decimal place value counters and model exchange for addition.</p>		
<p>Yr 6</p> <p>Consolidate KS2 methods</p>	<p>Consolidate KS2 methods</p>	<p>Consolidate KS2 methods</p>	<p>Insert zeros for place holders.</p> 

EYFS – Subtraction

	Concrete	Pictorial	Abstract
Taking away ones	<p>Physically taking away and removing objects from a whole (ten frames, Numicon, cubes and other items such as beanbags could be used).</p> <p>$4 - 3 = 1$</p> 	<p>Children to draw the concrete resources they are using and cross out the correct amount. The bar model can also be used.</p> 	<p>$7 - 4 = 3$</p> <p>Only where appropriate and supported by concrete/pictorial examples</p>
Counting back	<p>Counting back (using number lines or number tracks) children start with 6 and count back 2.</p> <p>$6 - 2 = 4$</p> 	<p>Children to represent what they see pictorially e.g.</p> 	<p>Children to represent the calculation on a number line or number track and show their jumps. Encourage children to use an empty number line</p> 

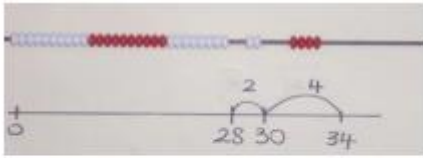

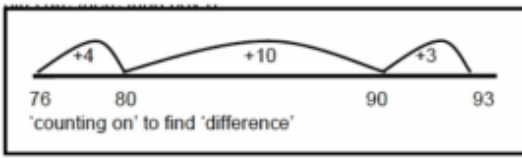

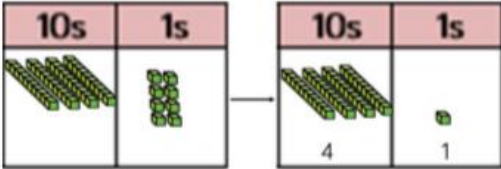

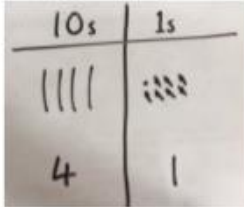

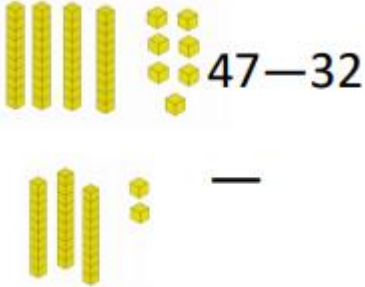

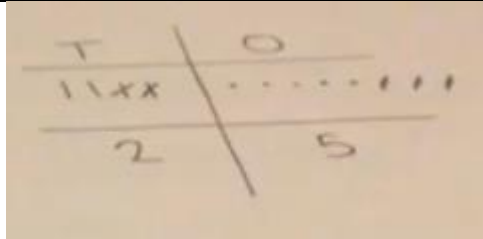

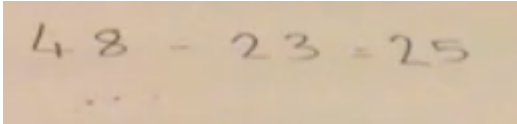

Year One – Subtraction

	Concrete	Pictorial	Abstract
Taking away ones	<p>Use physical objects, counters, cubes etc to show how objects can be taken away.</p>  $6 - 4 = 2$  $4 - 2 = 2$	 $15 - 3 = 12$ <p>Cross out drawn objects to show what has been taken away.</p>	$7 - 4 = 3$ $16 - 9 = 7$
Counting back	 <p>Move objects away from the group, counting backwards.</p>  <p>Move the beads along the bead string as you count backwards.</p>	 $5 - 3 = 2$ <p>Count back in ones using a number line.</p>	<p>Children to represent the calculation on a number line or number track and show their jumps. Encourage children to use an empty number line</p>  
Find the difference	<p>Compare objects and amounts</p>  <p>'Seven is 3 more than four'</p> <p>'I am 2 years older than my sister'</p>  <p>5 PENCILS</p> <p>3 Erasers</p> <p>Lay objects to represent bar model.</p>	<p>Children to draw the cubes/other concrete objects which they have used or use the bar model to illustrate what they need to calculate.</p>  <p>8</p> <p>5</p>	<p>Find the difference between 8 and 5.</p> <p>8 - 5, the difference is <input type="text"/></p> <p>Children to explore why $9 - 6 = 8 - 5 = 7 - 4$ have the same difference.</p>

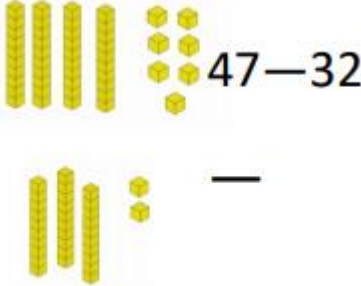

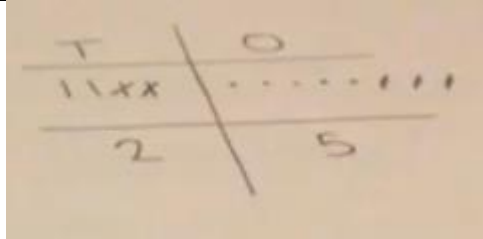

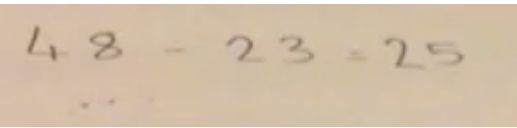

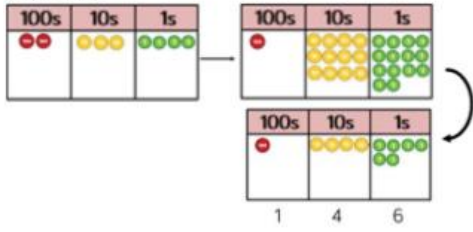

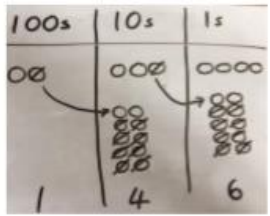

<p>Part whole model</p>	<div data-bbox="414 220 618 416"> </div> <p data-bbox="636 236 873 336">Link to addition. 	Concrete	Pictorial	Abstract
4-digit and 1-digit division using PV counters including remainders	<p>Short division using place value counters to group. $615 \div 5$</p>  <ol style="list-style-type: none"> 1. Make 615 with place value counters. 2. How many groups of 5 hundreds can you make with 6 hundred counters? 3. Exchange 1 hundred for 10 tens. 4. How many groups of 5 tens can you make with 11 ten counters? 5. Exchange 1 ten for 10 ones. 6. How many groups of 5 ones can you make with 15 ones? 	<p>Represent the place value counters pictorially.</p> 	<p>Children to the calculation using the short division scaffold.</p> $\begin{array}{r} 123 \\ 5 \overline{) 615} \end{array}$

Year Six – Division

	Long Division									
4-digit by 2-digit long division	<p>Long division using place value counters $2544 \div 12$</p> <table><tr><th>1000s</th><th>100s</th><th>10s</th><th>1s</th></tr><tr><td></td><td></td><td></td><td></td></tr></table> <p>We can't group 2 thousands into groups of 12 so will exchange them.</p>	1000s	100s	10s	1s
