

Important Update on School Holiday Food Payments

Dear Parent/Carer,

- During school holidays, families on Free School Meals have been receiving **food payments** from Trafford Council.
- These payments have now **come to an end**.
- This is because the Household Support Fund has ended.
- The Household Support Fund paid for these vouchers over the last few years.
- A new fund called the Crisis and Resilience Fund has replaced the Household Support Fund.
- The new fund has **different rules** about how the money can be used.
- **Unfortunately, families will not receive food payments for the October half term holiday in 2026, and no future payments will be made during school holidays.**

Help is still available

The Government is supporting people. They are:

- Removing the two-child limit on Universal Credit. That means families claiming Universal Credit can receive the child element for **all eligible children**.
- Expanding the Warm Home Discount. That means eligible families receive a **£150 discount on their electricity bill** to help with energy costs.
- Extending Free School Meals to all children in households receiving Universal Credit. That means your child will receive free school meals if someone in your home receives Universal Credit.
- Funding the Holiday Activities and Food Programme until 2029
